1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 9, 2007, has been entered.

Response to Amendment

2. Claims 13-19 remain pending.

3. Applicant's arguments are persuasive in light of the amendment. Upon further consideration, Luthra teaches away from the use of CMC's in the rotating turbine components now claimed.

Allowable Subject Matter

4. Claims 13-19 are allowed.

5. The following is an examiner's statement of reasons for allowance: Luthra represents the closest prior art. The claims are patentable over this reference as explained above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
